### Sixty Carloads From Hamlin

Sixty carloads of maize have been shipped from Hamlin so far this season according to Ted Russell at the 80 per cent of the total crop has al- Sunday, August 31. ready been harvested.

L. H. McBride stated that he believed the entire crop for this year will fall short of half the 1946 yield. Approximately 160 cars were shipped from here last season. The yield and acreage are both down considerably as compared to the previous Anson Gins First

Maize was bringing \$2.80 at the local markets Wednesday morning. The lowest price paid this year was \$2.40 andthe highest \$2.90.

Last year the harvest opened with an all-time high of \$3 being paid for the first grain, but \ opped very quickly and the season closed at only | ginned a 517 pound bale. \$1.65. So, the average price paid this season was far higher than last. Lack of moisture is believed to be

my visited her brother and family at although the acreage planted was much smaller.

### Fire Department Sponsors Move for Portable Machine

### Will Be Kept at Hamlin Hospital

Contributions are already coming in toward the purchase of a portable iron lung, according to Fire Chief Carl Young of the Hamlin Fire Department, which is sponsoring a Community Iron Lung Fund drive. The group will have one of the lungs on display at the City Electric & Plumbing Company Friday and Saturday of this week and those who wish to do so can leave their contributions at the display, with The Herald or turn it over to any Fire Department member.

Civic clubs voted to donate to the drive this week.

The portable iron lung is a proven instrument and was widely used in the war. It will cost approximately \$1,200 and will be for the use of anyone in the entire area. Chief Young stated that it would be permanently located in the new Ham-

It can be used in an emergency for care of patients suffering with respiratory ailments, such as polio, suffocation, post-operatve pneumonia, carbon monoxide poisoning, and

drownings. Everyone is urged to contribute as much as possible to the drive in order to assure its immediate success.

### Boy Scout Show; **Parking Situation**

Hamlin Chamber of Commerce dipast week or 10 days following the sor the Boy Scout show, Cavalcade street will be roped off for the 30minute show and that night the Scouts will camp at Lake Hamlin. cred at a picnic at the Bank cabin.

The group discussed the downtown cated that much heavier rain fell parking situation and it was finally voted to request all business men and their employees to park their cars in alleys and back of stores on Wednesdays and Saturdays, in an crowds visiting here on Appreciation Day and on Saturdays. Cooperation effort to provide parking space for of all local people in this vicinity is vitally important matter and will be greatly appreciated.

A committee was also appointed to meet with the City Council and discuss a plan for daily pickup of trash and garbage in the business

### **BOYCE HOUSE**— "Gives You Texas"

Paper shortage in this country is highly serious. One reason is that everybody wants to be a columist and then gather the "cream" of his columing and put it in a book.

The latest of these Johnny-Come-Laters in the field of what might laughlingly be called literature is Billy Rose, who has been very successful as a producer of shows, and of course that qualifies him as a writer, just as making a billion dollars by manufacturing automobiles makes a man an authority on any subject he wants to talk about.

And metropolitan papers, dazzled by a name, are using Billy's output in a big way. His column in case you have been so fortunate as not to have read one, consists of a marvelous display of egotism-even for a columist and of a parade of all the trite fictional situations that have been worn to shreds by students taking a short story writing course by

umn himself—but maybe be pro- McCaulley.

duces his column the same way he Well Known Abilene produces his shows. Back in 1936 and 1937, when the "Broadway Barnum" put on the Fort Worth Casa Manana, DuBois designed the costumes, Johnston painted the scenes, Suesse composed the music, a Hollywood dance director put on the dances, Winkler provided th elighting effects and John Murray Anderson put it all together as director With these slight exceptions, it was 10 per cent Billy's work.

Billy got his start by writing songs. Everyone knows how lofty the ethics of Tin Pan Alley are. They borrow from Bach, they mooch from Mozart and they bum from Beethoven.

Rose admits he has some researchers and leg-men for his columning. In other words, by his own admission, the column he calls is not really his except in the same sense that something you buy and pay for is

But watch some book clubs make the so-called Billy Rose book is seleccion for the month.

### **VFW Leader Named** To Regional Post

VFW members of the Hamlin area were glad to learn this week that John H. Owens, adjutant and service officer of Clayton M. Leach Post No. 2012, Abilene, has been appointed as one of six regional chiefsof-staff for the Department of Texas, Veterans of Foreign Wars, by Roger Q. Evans, state commander.

Owens will be in charge of all extension work for the 7th, 8th, 9th and the 15th districts, an area larger than most states of the nation. The seventh district includes 26 counties extending from Bailey to Cottle on the north, Bailey to Andrews counties on the west, Andrews to Mitchell on the south, and Mitchell, Scurry, Stonewall, King and Cottle counties on the east.

District No. Eight includes Fisher, Jones, Shackelford, Stephens, Palo Pinto, Nolan, Taylor, Callahan, Eastland, Erath, Coleman, Brown and Comanche counties.

In District No. Nne are 26 counties of the North Panhandle of which Dallas, Lipscomb, Farmer and Childress counties form the four cor-

District No. 15 includes Hardeman, Wilbarger, Wichita, Clay, Montague, Foard, Knox, Baylor, Archer, Haskell, Throckmorton, Young, Jack and Wise counties.

Owens will work under direction of the recently appointed chief-of-staff, Jim Wright of Weatherford. Other regional or assistant chiefs-of-staff are: Joe A. Farry, Dallas; J. B. Rutherford, Odessa; Donald Dill, Uvalde; Eugene Moore, Waco; and D. A. Dunlavey, Port Arthur.

Mr. and Mrs. Lester Morton spent Mr. and Mrs. J. R. Fielder.

### **Control of Rats Vital to Disease Curb** in Section

Because of the economic losses they cause to industry and com-Sunday in Abilene with her parents, merce and the annoyance they create in homes, rats anywhere in Jones County have been considered a serious menace to mankind since long before their role as vectors of disease was understood.

Today at least six diseases which are transmitted to man from the rat are known to medical science, according to Dr. George W. Cox, state health officer. These diseases include the dread plague, typhus, trichinosis, a form of jaundice, tapeworm and food poisoning. The whole history of the role rats play in the transmission of disease remains as yet unknown.

"It is necessary to public health," Dr. Cox says, "that a continuous rat control program be maintained in every urban and rural area throughout Texas. This is of especial importance on farms where rats may flourish by feeding on grain and other farm products."

The doctor pointed out that rats. like other living things, require food and shelter if they are to propagate and increase in number. Destroying their shelter and breeding places requires the rat-proofing of buildings and providing for periodic inspection of buildings to insure permanent safety. This program will force the rat out into the open where its destruction may be accomplished.

Of equal importance as a control measure is the elimination of all food supplies. This consists of storing all foods in rat-proof buildings or in rat-proof containers, the proper storage and disposal of garbage. and careful feeding of stock to prevent waste feed from being picked up by the rats.

By observing these control measures, the community will benefit not only in the eradicaton of a nuisance and economic menace, but in improved health conditions and the prevention of rat-borne diseases.

Mr. and Mrs. George Darden and family are vacationing in Dallas and Fort Worth and in Shreveport, Louisiana with their daughter, Lt. and Mrs. W. H. Pickron Jr. and family.

#### **Jones County** N. F. L. A. Pays Another Dividend

Dividend checks are being mailed this week to the stockholder members of the Jones County National Farm Loan Association at Anson. according to Joe Breed, secretarytreasurer. The amounts being remitted represent a five per cent dividend on the association's captial stock outstanding as of June 30, Studio in Hamlin 1947, Mr. Breed said.

This is the second five per cent dividend paid to the stockholdermembers of the Jones County National Farm Loan Association during 1947. Mr. Breed said that the officers and directors of the association are especially pleased to be able to pass back to its members a portion our money. It is still of the earnings of the system. It was pointed out that these dividends has the effect of reducing the average interest cost on the Federal Land Bank loans of the borrower-memsterey work for you, bers to only three and forty-two per cent, and that approximately 500 bers to only three and forty-two per Jones County land owners will benetit from these dividend payments. 'The Jones County Associaton is in

the best financial condition in its history, Mr. Breed said. He pointed out that not a single stockholdermember is delinquent on the installment maturities on his loan and said this is fine tribute to the payment

reputation of Jones County farmers and ranchers.

#### **Diabetes Still Takes** Heavy Toll in Texas Health Officer Says

Despite the fact modern medicine can do much to help the diabetic live out a normal life span in this area, nevertheless diabetes took a toll of several hundred lives in Texas during the past year, according to Dr. George W. Cox, state health

cable diseases such as typhod fever, malaria, diphtheria and smallpox are ennually decreasing in this country, diabetes is still taking a tragic number of human lives each year, especially in the middle aged group," Dr.

"Until recent years diabetes was not noted as a major health problem, but it became accepted as such in direct ratio to the development of medical laboratory procedures, which made the disease more easily diagnosed."

Dr. Cox states diabetes is generally recognized as a class disease. It seems to attack the white collar class of indoor men and women much more frequently than it does the outdoor person whose work is more vigorous and calls for more exercise. Whatever the actual cause of the disease may be, vocational and economic conditions apparentyy are factors, since it seems a fact that those persons whose occupations call for manual labor and simple living are not frequently af-

Dr. Cox stated that simple, wholesome diets, sufficient exercise and sleep are factors in the prevention of diabetes, and an annual physical examination, especially in middle aged persons, is important so that if the disease is present, competent treatment can be instituted while the disease is in its early stage.

### **BOYCE HOUSE**— "Gives You Texas"

Paper shortage in this country is highly serious. One reason is that everybody wants to be a columist and then gather the "cream" of his columing and put it in a book.

The latest of these Johnny-Come-Laters in the field of what might laughlingly be called literature is Billy Rose, who has been very successful as a producer of shows, and of course that qualifies him as a writer, just as making a billion dollars by manufacturing automobiles makes a man an authority on any subject he wants to talk about.

And metropolitan papers, dazzled by a name, are using Billy's output in a big way. His column in case you have been so fortunate as not to have read one, consists of a marvelous display of egotism-even for a columist and of a parade of all the trite fictional situations that have been worn to shreds by students taking a short story writing course by ny Corbin and family of Lamesa correspondence.

umn himself-but maybe be pro- McCaulley.

duces his column the same way he produces his shows. Back in 1936 and 1937, when the "Broadway Barnum" put on the Fort Worth Casa To Regional Post Manana, DuBois designed the costumes, Johnston painted the scenes, Suesse composed the music, a Hollywood dance director put on the dances, Winkler provided th elighting effects and John Murray An-With these slight exceptions, it was 10 per cent Billy's work.

Billy got his start by writing songs. Everyone knows how lofty the ethics of Tin Pan Alley are. They borrow from Bach, they mooch from Mozart and they bum from Beethoven.

Rose admits he has some researchers and leg-men for his columning. In other words, by his own admission, the column he calls is not really his except in the same sense that something you buy and pay for is

But watch some book clubs make the so-called Billy Rose book is seleccion for the month.

### Well Known Abilene **VFW Leader Named**

VFW members of the Hamlin area were glad to learn this week that John H. Owens, adjutant and service officer of Clayton M. Leach Post No. 2012, Abilene, has been apderson put it all together as director pointed as one of six regional chiefsof-staff for the Department of Texas, Veterans of Foreign Wars, by Roger Q. Evans, state commander.

Owens will be in charge of all extension work for the 7th, 8th, 9th and the 15th districts, an area larger than most states of the nation. The seventh district includes 26 counties extending from Bailey to Cottle on the north. Bailey to Andrews counties on the west, Andrews to Mitchell on the south, and Mitchell, Scurry, Stonewall, King and Cottle counties on the east.

District No. Eight includes Fisher, Jones, Shackelford, Stephens, Palo Pinto, Nolan, Taylor, Callahan, Eastland, Erath, Coleman, Brown and Comanche counties.

In District No. Nne are 26 counties of the North Panhandle of which Dallas, Lipscomb, Farmer and Childress counties form the four cor-

District No. 15 includes Hardeman Wilbarger, Wichita, Clay, Montague, Foard, Knox, Baylor, Archer, Haskell, Throckmorton, Young, Jack and Wise counties.

Owens will work under direction of the recently appointed chief-of-staff, Jim Wright of Weatherford. Other regional or assistant chiefs-of-staff are: Joe A. Farry, Dallas; J. B Rutherford, Odessa; Donald Dill, Uvalde; Eugene Moore, Waco; and D. A. Dunlavey, Port Arthur.

Mr. and Mrs. J. R. Fielder.

### Control of Rats **Vital to Disease Curb** in Section

Because of the economic losses Mr. and Mrs. Lester Morton spent they cause to industry and com-Sunday in Abilene with her parents, merce and the annoyance they create in homes, rats anywhere in Jones County have been considered a serious menace to mankind since long before their role as vectors of disease was understood.

Today at least six diseases which are transmitted to man from the rat are known to medical science, according to Dr. George W. Cox, state health officer. These diseases include the dread plague, typhus, trichinosis, a form of jaundice, tapeworm and food poisoning. The whole history of the role rats play in the transmission of disease remains as yet unknown.

"It is necessary to public health," Dr. Cox says, "that a continuous rat control program be maintained in every urban and rural area throughout Texas. This is of especial importance on farms where rats may flourish by feeding on grain and other farm products."

The doctor pointed out that rats, like other living things, require food and shelter if they are to propagate and increase in number. Destroying their shelter and breeding places requires the rat-proofing of buildings and providing for periodic inspection of buildings to insure permanent safety. This program will force the rat out into the open where its destruction may be accomplished.

Of equal importance as a control measure is the elimination of all food supplies. This consists of storing all foods in rat-proof buildings or in rat-proof containers, the proper storage and disposal of garbage. and careful feeding of stock to prevent waste feed from being picked up by the rats.

By observing these control measures, the community will benefit not only in the eradicaton of a nuisance and economic menace, but in improved health conditions and the prevention of rat-borne diseases.

Mr. and Mrs. George Darden and family are vacationing in Dallas and Fort Worth and in Shreveport, Louisiana with their daughter, Lt. and Mrs. W. H. Pickron Jr. and family.

#### **Jones County** N. F. L. A. Pays Another Dividend

Dividend checks are being mailed this week to the stockholder members of the Jones County National Farm Loan Association at Anson, according to Joe Breed, secretarytreasurer. The amounts being re- Mrs. E. O. Bone mitted represent a five per cent dividend on the association's captial stock outstanding as of June 30, Studio in Hamlin 1947, Mr. Breed said.

This is the second five per cent dividend paid to the stockholdermembers of the Jones County National Farm Loan Association during 1947. Mr. Breed said that the officers and directors of the association are especially pleased to be able to pass back to its members a portion our money. It is still of the earnings of the system. It was pointed out that these dividends has the effect of reducing the average interest cost on the Federal Land cause the Strou don't need. At bers to only three and forty-two per cent, and that approximately 500 Bank loans of the borrower-mem-Jones County land owners will benetit from these dividend payments.

The Jones County Associaton is in history, Mr. Breed said. He pointed out that not a single stockholdermember is delinquent on the installment maturities on his loan and said this is fine tribute to the payment

reputation of Jones County farmers and ranchers.

#### **Diabetes Still Takes** Heavy Toll in Texas Health Officer Says

Despite the fact modern medicine can do much to help the diabetic live out a normal life span in this area, nevertheless diabetes took a toll of several hundred lives in Texas during the past year, according to Dr. George W. Cox, state health

malaria, diphtheria and smallpox are ennually decreasing in this country, diabetes is still taking a tragic number of human lives each year, especially in the middle aged group," Dr.

"Until recent years diabetes was not noted as a major health problem, but it became accepted as such in direct ratio to the development with 6,283,000 a year ago. Wheat of medical laboratory procedures, which made the disease more easily diagnosed."

Dr. Cox states diabetes is generally recognized as a class disease. It seems to attack the white collar class of indoor men and women much more frequently than it does the outdoor person whose work is more vigorous and calls for more exercise. Whatever the actual cause of the disease may be, vocational and economic conditions apparentyy are factors, since it seems a fact; that those persons whose occupations call for manual labor and simple living are not frequently af-

Dr. Cox stated that simple, wholesome diets, sufficient exercise and sleep are factors in the prevention of diabetes, and an annual physical examination, especially in middle aged persons, is important so that if the disease is present, competent treatment can be instituted while the disease is in its early stage.

RADIO SERVICE

(At Jay Hardware)

That motto hung over our type cases for years when we owned and operated a handset weekly. When we became extremely discouraged (which was pretty often-) we would read those words over again and take on new courage. How foolish to let petty problems upset us. Worry is not the solution. It only tends to magnifies that problem and hampers our mental ability to work it out. (That is what we keep telling ourselves

Tsk! Tsk! Sounds like we are a columnist.

Seems like everyone and their dogs spoken, can be retracted. That is have had vacations this summer. Many have taken long trips that had fully, unselfishly, and courageously, been postponed during the war. as if it were the only day. Live one | Many farmers and ranchers have taday at a time, and not try to live ken to the highways for the first yesterday, today and tomorrow all time in years. Must be a prosperat the same time. We should not be ous country! That is as it should so vitally concerned about what the be. The farmers and ranchers denext day will bring as about how we serve a vacation. They fought a good fight during the war at the wheels of their tractors. Theirs is a "I had no shoes and complained hard life of work and uncertainty, but not half so nerve-wrecking as many other professions. They don't lie awake at night and worry—they are too tired. If you have insomnia, follow in his footsteps from early morning until dark, and we betcha it will cure your sleeplessness, at least Mr. White, a Shriner and amateur for that one night.

> Rev. Miles B. Hayes, of Stamford, Rite recently. who is conducting a revival at Corinth Church, told his audiance on opening night of the services, "If I say anything to make you mad, come around and tell me about it and I ing extended, our seven-year-old will forgive you for taking offense." pride and joy looked up into our Big-hearted Irishman, isn't he?

Some amazing things come out of the magic bag, but nine-year-old Nancy Scott of Alvord, and Sammy Owens, 10, Lamesa, both polio patients at the Scottish Rite Hospital for Crippled Children in Dallas, want Bob White to tell them "how." magician, entertained the children at a lawn party sponsored by the Ladies Auxiliary of the Scottish

Just at the most serious part of the sermon, when the invitation was beday?" (If you are not acquainted and grapefruit. with the bride, you should read the Dallas News comic strip.

Recently read an article concernng child discipline. An incident of a child spilled milk on the tablecloth was used. The mother scolded the youngster harshly, sending him away from the table. While climbing down from the chair, he inquired "Mother why don't you treat me like you do company. The other night him that was alright." What wismany times show much more courtesy, tact, manners and consideration toward visitors than we do toward our loved ones and very best friends. We let our hair down, so to speak, with those dearest to our hearts, and sometimes it isn't so becomng.

Think before you say "No" when you are given the opportunity to contribute to the fund for the purchase and take a look at the machine, of which can prove a life-saver in the cases of polio, suffication, post-operative pheaumonia, carbon monoxide poisoning, drownings, and others. You never can tell when you might need such treatment. One can be of unestimatteble value n this part of Texas where so few are available closer than Fort Worth or Dallas.

Don't forget to vote on the College Building Amendment next Saturday August 23.

"Yankee" Apples Start Fued on Katy's Train

It's no joke, son! Those "yankee" aples on the Katy lounge care hove ruffled the tempers of Texas citrus growers Hamlin area people are told this week by the Katy Railroad.

Passengers on the Texas Special were pleased recently when the Katy returned its pre-war custom of giving away apples in the lounge at bedtime. Even Texans accepted the apples and chomped them delighted-

Then Paul Vickers, president of the McAllen Chamber of Comerce, heard of this "despicable" practice and protested to the Katy vice-president Traffic Manager J. F. Hen-

He wrote that Rio Grande citrus growers had gone "sour" on the Katy eyes and asked earnestly, "Did you for alowing "nawthun" aples on ts know Cupcake is getting married to- trains rather than Texas oranges

"Your patrons will enjoy Texas because they might get the bellyache

Paul Bryan Lumber Co.

Can your butane or propane tank serve you through the four winter months without refilling? The Texas Butane Dealers Association urges you to take stock now. If not, you may find yourself without heat in the coldest months of the year.

> Hundreds of new industries developed during the war-plastics, synthetics, chemicals, etc.-have placed a tremendous demand for butane and propane all year round. On the other hand, domestic users burn four to seven times more gas in winter than in summer, but your dealer can furnish you very little more gas in cold months than in warm months. In order to balance this situation, heating gas users must plan to buy their winter supply at least four months ahead.

By doing this, your winter supply will be in your tank when you need it most. This situation is not new. The farmer has always stored grain early for winter. Housewives can summer foods for winter use. And by taking less time for your dealer's services, he can supply you and your neighbors more economically at the very time when road conditions are worst.

> The Texas Butane Dealers Association urges you to drop in and see your local gas dealer as soon as possible. Consult him before you buy any system. He knows butane-propane, and will do everything he can to help you get ready for winter now.

lars actually go further than before. This is true in spite of the fact that costs of operation and maintenance have gone up and up with almost everything else, except the hire of money.

Living costs continue to increase, yet the average cost of a kilowatt hour of service to residential customers has decreased 32.6 per cent since 1933.

#### **Brown County Man** School Supervisor

Clive Pierce of Brownwood has been appointed new deputy state superintendent for Abilene district, according to an announcement by the State Department of Education. Pierce, a veteran schoolman with 23 years experience, suceeds Anthony Hunt of Abilene, who resigned to become executive educational director of St. Paul's Methodist Church in Abilene.

The slightly revised district ineludes Jones, Fisher, Scurry, Nolan, Shackleford, Stephens, Palo Pinao, Mitchell, Taylor, Callahan and Eastland Counties.

#### Health Officer Urges Taking Salt for Fag

Jones County's many citizens are urged by Dr. George W. Cox, State Department of Health officer, to use plenty of salt to beat the heat. "If your work," Dr. Cox says, "Is such that it causes excessive perspiration add a pinch of salt, ordi-

water to avoid cramps." Anyone who sweats profusely may lose as high as 40 to 50 grams of salt during a hot day, Dr. Cox declares. Excessive loss of salt often results in cramps or heat fag.

The state health official suggests the taking of salt tablets as a simple way to avoid cramps, headache and the nausea and vomiting which occur in severe cases of salt defi-

### Area Cotton Now Rides High with Quality Demand

It hasn't been too long since Jones County's 1,452 farmers were almost counted cut because they same farmers find themselves sitling in the box office with a world crying for their wares.

This is the word given by Horace | Hayden, secretary of the Oklahoma Cotton Growers Association, who offers considerable encouragement for owners of cotton acreage in Scurry and adjoining counties.

While confident that the fleece staple shortage will continue this year and through 1948, Hayden expresses a fear of consequences from continued high prices which are due to last as long as the shortage con tinues. The fear stems from realization of competition offered by synnary table salt, to each drink of

United States millers are using cotton at the rate of 10,000,000 bales

in history. Estimated 11,000,00-bale for sale, located near Hamiln. I crop for 1947, local observers say, have one of Hamlin's best houses will doubtless prove a little high.

Public Welfare reports.

While Jones County highway work, outside of regular maintenance operations, activities of the Texas Highway Department are impressive.

Now entering its thirtieth year, Commission Chairman John S. Redditt reports paved mileage in the state system has more than quadrupled since it was first accurately measured in 1929.

Endless struggle to build new roads as fast as traffic demand has increased has shoved the 1929 paved miles on July 1-with more being added every day.

"This still isn't enough," Redditt writes a Herald reporter. "Blight of congestion and hazards to safety their lady friends wear, but many on many sections of these paved of them keep chasing after those roads render them inadequate to who wear those hats. Nothing finer GELLINGS

Made under identical conditions with the same amounts and types of rubber, but using different fibers in the cords, the tires showed different degrees of stamina. Rayon cord tires lasted for an average of 25,985 miles, cotton in Memphis, Tennessee Wednesday, cord tires for averages of 46,399, 50,673 and 50,975 miles. Admiring the tire in the picture is Sam Lazenby of Hughes, Ark., himself an oil company distributor.

#### Clearing Mestguite **Trees Gives Grasses** Chance in Pasture

Veteran ranchers of Jones and other Counties say it is almost 'uni clievable" what our native West Texas range grasses will do in grazing-when given a fair chance.

A number of ranchers in Jones and Fisher Counties are now giving native grasses a chance by clearing mesquite growth off the range and 100 to 120 stocker cattle have been giving forage grasses room to grow.

An instance of how mesquite eradications help native grass is that of Wayne B. Ray, Archer County ranch er, who has captured attention of county agents and stockmen with his experiment.

Ray has a certain tract of land that would carry 40 head of cattle 10 to 20 years ago, if the cattle were given extra feed three months out of the year. Seven years ago the mesquite was grubbed off the pasture, and for the past three years soid off the same land.

Processing time tables for home canners recently released through ievas A. & M. College Extension Service can certainly be relied on or any make or model of canner

Time Tables for

**Processing Foods** 

So states Miss Loretta Allen, the Social Security Tax county home demonstration agent, who says canners on the market today differ in material, design and size but tests in nine canners showed the rate of heating and cooling did not differ enough to make different processing times necessary.

U. S. Department of Agriculture specialists made tests, Miss Loretta Allen continues, with green beans and mashed pumpkin with two canners of porcelain enamel on steel, by the Senate. one of pressed aluminum, and others of cast aluminum.

The canners varied in weight from 11 to 20 pounds and in volume from Regional VFW Chief 17 to 31 quarts. Each canner had a capacity of at least one tier of seven quart jars.

County housewives may feel safe in using the standard processing has been appointed as the regional times in any type of canner. The new time tables are still available in Mss Allen's office.

#### Many Vet Checks Returned Because of Inadequate Address

More than 17,000 government checks to Texas veterans, including plied that it was a locomotive, and a number for Jones, Fisher, and Stonewall County GI's, were return in the period of January through too?" May because of faulty addresses, the Veterans Administration informs The Herald.

Principal cause of the returns was veterans moving and failing to give the VA a notice of change of address. In all such cases the Veterans Administration must verify correct addresses of the GI before the checks can be remailed.

Although checks returned was only one per cent of the 1,739,733 issued in Texas during the time, a VA spokesman emphasizes the hardships caused many vets and the additional work load resulting from

Most negligent in notifying the Veterans Administration in change of addresses are World War II veterans taking on-the-job training or going to school. More than 60 per cent of the returns, it is pointed out, are subsistence payments.

#### Vets Presidential **Testimoniials Ready**

Presidential Testimnoial will be given to any individual who served for any period between September 16, 1940, and December 31, 1946, and was honorably separated, without having received the Testimonial, at the recruiting office in Abilene.

Presentation of certificates of service, discharge or separation papers are necessary to receive the Testimonial, Hamlin area veterans are advised.

He-"I'm keeping a record of all the good times we've had together." She-"Ah! Keeping a diary?" He-"No. Stubs in a check book."

NOTICE

# **Car Dealers and Owners**

A bill has been passed by the Texas Legislature that provides for the reinstatement of the registration transfer and also provides that application for transfer of registration and title shall be filed within 10 days of the date of such transfer. A fee of 50 cents is required for transfer of registration and a penalty of \$5.00 is imposed for failure to apply within the required number of days.

Check your title, and if the title is not in your name, please come into the Tax Clolector's office immediately and make your application. The assignment on the back of the title should be completely filled in if the assignment was made outside of this office. We are unable to accept titles signed by the seller and the buyer's name left blank. Also check to see if your 1947 license receipt is with your title. It will be necessary to transfer this receipt at the time the car is transferred. If you have lost your receipt, we can issue a duplicate copy of your original receipt.

### Announcement to Owners of Armed Forces Leave Bonds

The Farmers & Merchants National Bank of Hamlin is authorized by the United States Treasury Department to cash Armed Forces Leave Bonds for registered owners any time after September 1, 1947.

There is no requirement that these bonds be cashed at this time in order to get your money. They can be cashed at an time in the future upon demand and without delay.

Unless you are in real need of the money now, this institution and the United States Treasury Department strongly recommend that you permit your bond to earn interest at 21/2 per cent (up to its maturity) until you actually need the cash. We will be glad to serve you at any time.

To facilitate identification, owners should bring their original separation papers with them when presenting bonds for payment.

Under no circumstances may registered owners cash their bonds before September 2, 1947.

# Mr. Cotton Farmer!

# A Matter Vital To All of Us Needs Your Co-operation!

As all of us know, this area in good crop years needs the valuable assistance of migratory farm laborers from Mexico. Hamlin was one of the first towns in this section to provide a free Migratory Labor Camp. At the present time, the camp is badly run down and does not provide the facilities so badly needed.

Plans are being formed to build new bath rooms, sheds and other camp facilities, including a small cafe for these people. Something should be done or the area might face a drastic shortage of cotton pickers.

No one wants this to happen — both

the farmer and the businessman are vitally concerned. Businessmen improved the camp site and have kept it up in the past. They are willing to go a big share of the contemplated improvements, which would probably amount to several thousand dollars. They will appreciate the backing, financially and otherwise, of farmers throughout this area. Contributions from farmers will be gladly accepted and used in this work.

Local people are willing to accept the responsibility of the camp's operation-but will appreciate any advice or assistance from farmer friends. Let them hear from you about this!

### To Fumigate Grain Bins and Cribs

**Farmers Advised** 

With much grain going into storage here in Jones County, Extension Service en om logists at Texas A. & M. College remind Hamlin area farmers that stored grain insects take a big toll in grain bins every

They give an easy and economical way to protect grain in storage without harming the grain in any way. This is fumigation with ethylene dichloride-carbon tetrachloride. It is cheap and effective and can be applied to the grain bin with a watering can kr sprayer. It takes about six gallons of the mixture to treat 1,000 bushels of grain.

If the bins are not sealed tightly above, tarpaulin or other gas-tight sheets can be spread over the surface of the grain to hold the fumes in.

The person applying the material should be careful and get out into the fresh air if he begins to get dizzy. If he has much fumigating to do, it is a good idea to wear a gas mask.

The entomologists say that bins and cribs should be sprayed with five per cent DDT in oil before storage to kill any insects that might be there.

Mr. and Mrs. F. A. Smyres of Fort Worth and Mr. and Mrs. J. Paul Smyers and Sharon of Dallas visited Mr. and Mrs. James E. Simmons last them to Fort Worth.

On August 23 go to the polls and vote "yes" for the College Building Amend-

Remember the crowded conditions of our 16 state colleges last year.

Remember the thousands of GI's and other deserving young men and women who were turned away from our colleges because these colleges lacked building facilities.

Remember, if this amendment is not passed no other plan is proposed for the relief of these colleges.

And remember that passage of this amendment will not cost tax-payers a single additional penny. The amendment reallocates the state ad valorem taxes; it does not create any new taxes.

### TRUE STORIES of **WEST TEXAS**

(Copyrighted by N. H. Kincaid, 1947)

BALLAD OF THE BARBED WIRE

Not far from Bollinger in Runnels County and just of U.S. Highway 83, there is an old fence, its wires cut and spliced at every post. A frayed and most uninteresting fence, perhaps, but behind those spliced wires is a story that was duplicated through ut the west until it has become the history of West Texas itself.

This fence was new, back in the spring of 1883. It enclosed the 100,000-acre holdings of the Odom-Luckett Land & Livestock Company. But those were the days of conflict between the cattlemen, or the "free grass" element, and the small land owner, and every fence became a challenge to the man with the pliers. Guards became a necessity. So on this night in 1883, just after

the guards, going in twos, had completed the first leg of their inspection of the 40 miles of boundary fence, it thappened. "All right, you fellows, up with

'em," came quietly from the shadows beside them. Deftly their guns were removed and each man had a pair of pliers pushed into his hand. 'Now get to work!"

And all night long the guards had to cut wire, every strand at each post. Forty miles of fence, three strands high.

This opposition to fenced-in pastures and watering places was bitter and deep. Nor was it confined to the cattlemen. Nester's had their grievances also. The farmers fenced so they could grow crops, the stockmen fenced to assure a range for their cattle; they both fenced for spite. And wire cutting became a profession in itself. Men were known to hire cut to first one faction and then another, just for the thrill and the pay.

Garland G. Odom and his father. Thomas L. Odom, had been among the first cattle men of the open range to fence their holdings. But in 1886, three years after his expensive fence-cutting experience, Garland established his ranch in

Apache County, Arizona. Meanwhile the state legislators, realizing the gravity of the situation, made it a misdemeanor to carry a pair of pliers. And 20 year's later final measures were enacted that gave protection to the land holder against the land-claim jumpers and the man with the pliers was no longer a problem.

Mrs. Parker May and daughter, Judy, arrived Tuesday from Washing ton. D. C. for a visit with her husband's parents, Mr. and Mrs. M. P.

Mrs. Grover Sipe is in a Rotan hospital for medical treatment in preparation for an operation.

### YOUR STATE TAXES DOUBLED

The State Tax Rate This Year Is 72c On \$100 Valuation

Last Year the Rate Was 37c

Who Said, "No New Taxes"?

VOTE! VOTE!

Saturday, August 23rd

**AGAINST** 

An Additional 5c Tax

On Saturday, August 23, an amendment to the constitution of the State of Texas will be voted on to allocate 5c of the authorized 7c Confederate pension tax to finance a building program for State owned colleges other than the University of Texas and Texas A. & M.

### An Additional Tax

"They" say this is not a new tax, but you have not been paying it for many years. It certainly will be an additional tax you have not been paying. If voted by the people of Texas on August 23, it will be added to your 72c State tax, making a total of 77c on the \$100 valuation.

### **Small Taxpayers Pay**

The veteran, the farmer, the small home owner, the laborer, the small business man, everybody will have to pay this 5c tax in addition to the 72c State tax, if this amendment carries. This State tax is in addition to local taxes-County taxes—School taxes—City taxes—and per-

### Will Not Provide Buildings

If passed, this 5c additional tax will not provide adequate and sufficient buildings at today's cost of construction. In the next 10 years West Texas State Teachers College at Canyon MIGHT get \$487,200. The College of Mines at El Paso MIGHT get \$423,000. Sul Ross at Alpine MIGHT get \$189,000. Texas Technological College at Lubbock MIGHT get \$1,500,000 in these 10

### An Unnecessary Tax

This is an unnecessary tax. By a division of the so-called Permanent University Fund more buildings can be built at all the State owned colleges than this tax will provide. They also can be built much sooner. And the State University and Texas A. & M. still can get more buildings than they can use.

### **42 Counties Exempt**

42 of the State's richest countles pay no ad valorem taxes for State purposes. None of these counties are in West Texas.

Should you pay another unnecessary 5c tax when 42 of the State's 254 counties will not be paying to help our State colleges.

### Help Colleges-Vote Against

You will actually be helping all 14 of our States colleges if you vote against this amendment. All these colleges can and will get more money by regular appropriations if this amendment is defeated than they could get by the passage of this 5c tax amendment. Your vote against the amendment will help instead of hurt these 14 State colleges.

### DON'T BE LED ASTRAY

Do not be led astray by this proposed amendment which levies a 5c tax on your property for 30 years and saddles a \$45,000,000 debt on you and all other taxpayers. If passed, this amendment will open the flood gates of the State treasury to dozens of new colleges and you again will pay the bill.

Go Vote Saturday, August 23rd

A .- Presence of blood in milk is due to the rupture of one of the many small blood vessels within the udder. This rupture may be due to some mechanical injury or small tumor, or it may indicate tissue damage due to infection (mastitis). In the latter case the milk will be otherwise abnormal in appearance. When blood appears in the milk, it is best to call in your local veterinarian immediately for diagnosis and treatment of this condition. A small tumor in the teat canal may be quite successfully removed by surgery, while mastitis may respond to direct internal medication of the udder

Q.—When should gilts be removed from the market herd and placed in the brood sow herd?

A .- The research farm of a famous feed concern recommends that gilts remain with hogs being fattened for market until it is possible to select the "good-doing" gilts of the type desired. Usually this is at six months of age when their mates go to market.

Q .- At what age do turkey hens come into production?

A .- With the proper feed and management practices, a young turkey hen will come into production at about seven to eight months of age, regardless of the season of the year when she reaches this age.

Q.—When should pullets be vaccinated against chicken pox?

A.-Vaccinations against chicken pox should be done when pullets are between six and 10 weeks of age.

Good News For Farmers

#### Cotton Receipts at Texas Mills Up; Seed Crushing Down

Cotton farmers of this four-county area were told this week that heavy receiptst of cotton at Texas mills began in June, jumping from 206 tons n May to 2,170 tons during June according to the Bureau of the Census reports released by The University of Texas Bureau of Business Research.

n spite of the thousand-fold increase of receipts, cottonseed crushed slid downward three per cent to total 6,377 tons. This decline was not nearly so great as was seasonally expected, however, and the Bureau's index jumped upward 53 per cent to stand at 52.3 in June (bas 1935-39 as 100). The index is double the June 1946 index but is only slightly over half of prewar produc-

Stocks at the end of the month slipped down 21 per cent to total 16,328 tons of June 30.

Compared to June 1946, receipts were up 80 per cent, crushings were almost double and stocks felt a 40 per cent gain.

### Fisher County Seeks Cancellation Large Oil Lease In Royston Field

### \$200,000 Damage County bank that failed, and he deeded the rights in settlement with the county, according to Watson. Also Claimed by County Attorney

#### **Case Termed** Most Unusual

In one of the most unusual developments ever recorded in Texas turbulent oil history, several big oil companies have been sued for \$209,000 and outright cancellation of leases in the old Riyston oil field, five miles southwest of Hamlin. Outcome of the case will probably will be closely watched throughout the state and may well establish a precedent in such cases.

The suit, filed last week, listed Fisher County as plaintiff versus attack and the time of death at 6:00 The Texas Company, Stanolind Oil & Gas Company, Phillips Petraleum Corporation and Merry Brothers and Perini, as defendants. Suit was filed by Morris G. Watson of Rotan ficating. Interment was in the Italy and Roby, who has been employed is special counsel for the county to prosecute the suit. It is thought the case will be tried in the October term of 104h District court of Judge

Fisher County is asking for cancellation of a lease held on 3,040 acres of land in the Royston area and damages totaling \$200,000. If asks as an alternative for \$500,000 damage and a program to insure proper development of the property smaller royalty owners interested in the tracts involved.

Field Opened in 1927.

1929, the late Dan W. Stephens, block to C. V. Lyman and W. F. Holder, who shortly thereafter sold the lease to the defendants in the suit. The Texas Company drilled the famous Stephens well in 1927, which was the opener of oil production in the Royston field, and in

The plaintiff alleges that The Texas Company drilled not more than five wells in the acreage from he date of the lease purchase by that company until the date of the filing of the suit by the plaintiff, and at present there are three small producers from the original discovery formation of 3,300 feet. The Texas Company recently drilled an additional well to Palo Pinto reef, around 5,200 feet, thought to be a 200-barrel per day producer.

The plaintiff alleges that the three shallow wells on the lease acreage involved in the suit ceased to produce commercially some time ago. and that the lease terminated with non-production, and claims that defendants in suit have no lease on the property, but are unlawfully claiming lease and thereby praventing plaintiff from having land de-

Watson said that on November 18 this year the lease will be 21 years old, during which time the county has realized no money from it.

Fisher County acquired approximately one-fourth of the mineral rights under the tract by deed from Stephens in the 1930s, Watson said. Stephens had been surety on one of the depository bonds for a Fisher

D., 1947, in a certain suit No. 6860, Watson said that the Commis- wherein The State of Texas, for itself and in behalf of Jones County was not to blame for failure to and for the use and benefit of Jones County Road District No. 1, a municipal corporation duly incorporated under the laws of the State of Texas, and being a political subdivision of said county whose taxes are assessed and collected by the Tax Assessor and Collector thereof, is Plaintiff, and the City of Hamlin and the Hamlin Independent School District, both municipal corporations, are Interveners, H. L. Norris is defendant-in favor of the said Plaintiff, for the sum of \$434.50, together with interest at six per cent per annum from April 30, 1947; in favor dent of this community, was found of the said Intervener, City of Hamdead in bed by his wife at their lin, for the sum of \$507.10, together with interest at six per cent per annum from April 30, 1947; and in favor of the said Intervener, Hamlin Independent School District, for the sum of \$431.71, together with interest at 6 per cent per annum from April 30, 1947, for delinquent state

# Tidelands Rights

Hamlin people are advised this week by the Governor of Texas that soon after his return from an official trip to Guatemala, he plans to make or name a statewide committee to coordinate the efforts of all Texans in proaecting the interests of the public schools in the tidelands mat-

A recent United States Supreme Court decision held that the Federal government had prior claim on the mineral resources in tidelands, regardless of the ownership of these land. Texas is resisting that view. Proceeds from leases on these lands

Governor Jester secured the unanimous adoption of a resolution by The Conference of Governors in the recent meeting at Salt Lake City, Pebe Doris Shelton, attended the fin- | Utah, urging Federal legislation to protecct the rights of all the States in this matter, and just returned from Great Falls, Montana, where he addressed the Interstate Oil Compact on the same subject. The Commission unanimously adopted the saame resolution.

> "This threat is not by any means confined to our oil reserves," the Governor said. "If the Federal government can maintain a prior claim to oil, it can make the same claim to any other natural resources, and we could conceivably find ourselves some day with nationilized natural resources, regardless of their previous ownership. The significance of this to our schools, which get royalities, to our State economy, and to the right of ownership of private property, cannot be overestimated.

> "There is, in my judgment, no more important matter which could occupy the attention of the Chief Executive and other officials and citizens of Texas than this, and I plan to dedicate my most earnest effort to the matter of securing a satisfactory solution. In this endeavor I invite the full cooperation of all the citizens of Texas."

Mrs. W. O. Wilbanks was in Rotan Tuesday for medical treatment

Billie Deel was brought home last a mail box without feeling in his Thursday from Rotan hospital, and is getting along nicely.

### **BOYCE HOUSE**— "Gives You Texas"

Paper shortage in this country is highly serious. One reason is that everybody wants to be a columist and then gather the "cream" of his columing and put it in a book.

The latest of these Johnny-Come-Laters in the field of what might laughlingly be called literature is Billy Rose, who has been very successful as a producer of shows, and of course that qualifies him as a writer, just as making a billion dollars by manufacturing automobiles makes a man an authority on any subject he wants to talk about.

And metropolitan papers, dazzled by a name, are using Billy's output in a big way. His column in case you have been so fortunate as not to have read one, consists of a marvelous display of egotism-even for a columist and of a parade of all the trite fictional situations that have been worn to shreds by students tak- of Plainview and Mr. and Mrs. Johning a short story writing course by ny Corbin and family of Lamesa correspondence.

umn himself-but maybe be pro- McCaulley.

duces his column the same way he Well Known Abilene produces his shows. Back in 1936 and 1937, when the "Broadway Barnum" put on the Fort Worth Casa To Regional Post Manana, DuBois designed the costumes, Johnston painted the scenes, Suesse composed the music, a Hollywood dance director put on the dances, Winkler provided th elighting effects and John Murray Anderson put it all together as director pointed as one of six regional chiefs-10 per cent Billy's work.

Billy got his start by writing songs. Everyone knows how lofty the ethics of Tin Pan Alley are. They borrow from Bach, they mooch from Mozart and they bum from Beethoven.

Rose admits he has some researchers and leg-men for his columning. In other words, by his own admission, the column he calls is not really his except in the same sense that something you buy and pay for is

But watch some book clubs make the so-called Billy Rose book is seleccion for the month.

### **Control of Rats Vital to Disease Curb** in Section

Because of the economic losses Mr. and Mrs. Lester Morton spent they cause to industry and commerce and the annoyance they create in homes, rats anywhere in Jones County have been considered a serious menace to mankind ince long before their role as vecors of disease was understood.

Today at least six diseases which are transmitted to man from the rat are known to medical science, according to Dr. George W. Cox, state health officer. These diseases include the dread plague, typhus, trichinosis, a form of jaundice, tapeworm and food poisoning. The whole history of the role rats play in the transmission of disease remains as yet unknown.

"It is necessary to public health," Dr. Cox says, "that a continuous rat control program be maintained in every urban and rural area throughout Texas. This is of especial importance on farms where rats may flourish by feeding on grain and other farm products."

The doctor pointed out that rats. like other living things, require food and shelter if they are to propagate and increase in number. Destroying their shelter and breeding places requires the rat-proofing of buildings and providing for periodic inspection of buildings to insure permanent safety. This program will force the rat out into the open where its destruction may be accomplished.

Of equal importance as a control measure is the elimination of all food supplies. This consists of storing all foods in rat-proof buildings or in rat-proof containers, the proper storage and disposal of garbage. and careful feeding of stock to prevent waste feed from being picked up by the rats.

By observing these control measures, the community will benefit not only in the eradicaton of a nuisance and economic menace, but in improved health conditions and the prevention of rat-borne diseases.

#### **Diabetes Still Takes** Heavy Toll in Texas Health Officer Says

Despite the fact modern medicine can do much to help the diabetic live out a normal life span in this area, nevertheless diabetes took a toll of several hundred lives in Texas.

cable diseases such as typhod fever, reported this week by the U.S. Demalaria, diphtheria and smallpox are partment of Agriculture. ennually decreasing in this country, diabetes is still taking a tragic number of human lives each year, especially in the middle aged group," Dr. grand total of acreage for harvest to

"Until recent years diabetes was not noted as a major health problem, but it became accepted as such in direct ratio to the development of medical laboratory procedures, which made the disease more easily diagnosed."

Dr. Cox states diabetes is generally recognized as a class disease. It seems to attack the white collar class of indoor men and women much more frequently than it does the outdoor person whose work is more vigorous and calls for more exercise. Whatever the actual cause of the disease may be, vocational and economic conditions apparentyy are factors, since it seems a fact that those persons whose occupations call for manual labor and simple living are not frequently af-

Dr. Cox stated that simple, wholesome diets, sufficient exercise and sleep are factors in the prevention of diabetes, and an annual physical examination, especially in middle aged persons, is important so that if the disease is present, competent treatment can be instituted while the disease is in its early stage.

### **BOYCE HOUSE**— "Gives You Texas"

Paper shortage in this country is highly serious. One reason is that everybody wants to be a columist and then gather the "cream" of his columing and put it in a book.

The latest of these Johnny-Come-Laters in the field of what might laughlingly be called literature is Billy Rose, who has been very successful as a producer of shows, and of course that qualifies him as a writer, just as making a billion dollars by manufacturing automobiles makes a man an authority on any subject he wants to talk about.

And metropolitan papers, dazzled by a name, are using Billy's output | yours. in a big way. His column in case you have been so fortunate as not to have read one, consists of a marvelous display of egotism-even for a columist and of a parade of all the trite fictional situations that have correspondence.

umn himself-but maybe be pro- McCaulley.

duces his column the same way he Well Known Abilene produces his shows. Back in 1936 and 1937, when the "Broadway Barnum" put on the Fort Worth Casa Manana, DuBois designed the costumes, Johnston painted the scenes, Suesse composed the music, a Hollywood dance director put on the dances, Winkler provided th elighting effects and John Murray Anderson put it all together as director With these slight exceptions, it was 10 per cent Billy's work.

+ Short No. 1 de British W. W.

Billy got his start by writing songs. Everyone knows how lofty the ethics of Tin Pan Alley are. They borrow from Bach, they mooch from Mozart and they bum from Beethoven.

Rose admits he has some researchers and leg-men for his columning. In other words, by his own admission, the column he calls is not really his except in the same sense that something you buy and pay for is

But watch some book clubs make the so-called Billy Rose book is seleccion for the month.

### VFW Leader Named To Regional Post

VFW members of the Hamlin area were glad to learn this week that John H. Owens, adjutant and service officer of Clayton M. Leach Post No. 2012, Abilene, has been appointed as one of six regional chiefsof-staff for the Department of Texas, Veterans of Foreign Wars, by Roger Q. Evans, state commander.

Owens will be in charge of all extension work for the 7th, 8th, 9th and the 15th districts, an area larger than most states of the nation. The seventh district includes 26 counties extending from Bailey to Cottle on the north, Bailey to Andrews counties on the west, Andrews to Mitchell on the south, and Mitchell, Scurry, Stonewall, King and Cottle counties on the east.

District No. Eight includes Fisher, Jones, Shackelford, Stephens, Palo Pinto, Nolan, Taylor, Callahan, Eastland Erath. Coleman, Brown and Comanche counties.

In District No. Nne are 26 counties of the North Panhandle of which Dallas, Lipscomb, Farmer and Childress counties form the four cor-

District No. 15 includes Hardeman, Wilbarger, Wichita, Clay, Montague, Foard, Knox, Baylor, Archer, Haskell, Throckmorton, Young, Jack and

Wise counties. Owens will work under direction of the recently appointed chief-of-staff, Jim Wright of Weatherford. Other regional or assistant chiefs-of-staff are: Joe A. Farry, Dallas; J. B. Rutherford, Odessa; Donald Dill, Uvalde; Eugene Moore, Waco; and D. A. Dunlavey, Port Arthur.

Mr. and Mrs. Lester Morton spent Sunday in Abilene with her parents, Mr. and Mrs. J. R. Fielder.

### Control of Rats **Vital to Disease Curb in Section**

Because of the economic losses they cause to industry and commerce and the annoyance they create in homes, rats anywhere in Jones County have been considered a serious menace to mankind since long before their role as vecors of disease was understood.

Today at least six diseases which are transmitted to man from the rat are known to medical science, according to Dr. George W. Cox, state health officer. These diseases include the dread plague, typhus, trichinosis, a form of jaundice, tapeworm and food poisoning. The whole history of the role rats play in the transmission of disease remains as vet unknown.

"It is necessary to public health," Dr. Cox says, "that a continuous rat control program be maintained in every urban and rural area throughout Texas. This is of especial importance on farms where rats may flourish by feeding on grain and other farm products."

The doctor pointed out that rats, like other living things, require food and shelter if they are to propagate their shelter and breeding places requires the rat-proofing of buildings and providing for periodic inspection of buildings to insure permanent safety. This program will force the rat out into the open where its destruction may be accomplished.

Of equal importance as a control measure is the elimination of all food supplies. This consists of storing all foods in rat-proof buildings or in rat-proof containers, the proper storage and disposal of garbage. and careful feeding of stock to prevent waste feed from being picked up by the rats.

By observing these control measures, the community will benefit not only in the eradicaton of a nuisance and economic menace, but in improved health conditions and the prevention of rat-borne diseases.

### Safeway takes special care to bring you sweet corn at its peak of goodness! To begin with, our buyers select only the plumpest young ears. And they insist that the corn be picked in the cool of early morning before the sun's heat can drive away any of the juicy flavor from the tender kernels. Then the corn is rushed to our stores ... all its natural goodness protected by controlled refrigeration. Like all our fruits and vegetables, corn at Safeway is guaranteed to be exactly right...fresh and flavorsome...or your money back.

#### **Diabetes Still Takes** Heavy Toll in Texas Health Officer Says

Despite the fact modern medicine can do much to help the diabetic live out a normal life span in this area, nevertheless diabetes took a toll of several hundred lives in Texas during the past year, according to

"While deaths from the communimalaria, diphtheria and smallpox are partment of Agriculture. ennually decreasing in this country, diabetes is still taking a tragic number of human lives each year, especially in the middle aged group," Dr.

"Until recent years diabetes was not noted as a major health problem, but it became accepted as such in direct ratio to the development of medical laboratory procedures, which made the disease more easily diagnosed."

Dr. Cox states diabetes is generally recognized as a class disease. It seems to attack the white collar class of indoor men and women much more frequently than it does the outdoor person whose work is more vigorous and calls for more exercise. Whatever the actual cause of the disease may be, vocational and economic conditions apparentyy are factors, since it seems a fact that those persons whose occupations call for manual labor and simple living are not frequently af-

Dr. Cox stated that simple, wholesome diets, sufficient exercise and sleep are factors in the prevention of diabetes, and an annual physical examination, especially in middle aged persons, is important so that if the disease is present, competent treatment can be instituted while the disease is in its early stage.

Tsk! Tsk! Sounds like we are trying to be a philosopher instead of

over and over again.)

Seems like everyone and their dogs have had vacations this summer. Many have taken long trips that had good fight during the war at the wheels of their tractors. Theirs is a "I had no shoes and complained hard life of work and uncertainty, but not half so nerve-wrecking as many other professions. They don't lie awake at night and worry—they are too tired. If you have insomnia, follow in his footsteps from early morning until dark, and we betcha it will cure your sleeplessness, at least Mr. White, a Shriner and amateur for that one night.

> Rev. Miles B. Hayes, of Stamford, Rite recently. who is conducting a revival at Corinth Church, told his audiance on opening night of the services, "If I will forgive you for taking offense." Big-hearted Irishman, isn't he?

Some amazing things come out of the magic bag, but nine-year-old Nancy Scott of Alvord, and Sammy Owens, 10, Lamesa, both polio patients at the Scottish Rite Hospital for Crippled Children in Dallas, want Bob White to tell them "how." magician, entertained the children at a lawn party sponsored by the Ladies Auxiliary of the Scottish

Just at the most serious part of the say anything to make you mad, come sermon, when the invitation was bearound and tell me about it and I ing extended, our seven-year-old pride and joy looked up into our eyes and asked earnestly, "Did you know Cupcake is getting married today?" (If you are not acquainted and grapefruit. with the bride, you should read the Dallas News comic strip.

> Recently read an article concernng child discipline. An incident of a child spilled milk on the tablecloth was used. The mother scolded the down from the chair, he inquire We let our hair down, so to speak with those dearest to our hearts, and ometimes it isn't so becoming.

> Think before you say "No" when you are given the opportunity to contribute to the fund for the purchase of a portable iron lung by the fire and take a look at the machine, of which can prove a life-saver in the cases of polio, suffication, post-operative pheaumonia, carbon monoxide poisoning, drownings, and others. You never can tell when you might need such treatment. One can be of unestimatteble value n this part of Texas where so few are available closer than Fort Worth or Dallas.

> Don't forget to vote on the College Building Amendment next Saturday, August 23.

Hooper. That bunch at Brayant-Link seem to throughly enjoy skidfishing party caught at Port Lavaca. That's alright, Mrs. Hooper. Not many Hamlinites can boast of such a catch. Bring that picture to us that you told us you took, and we will verify your story to the satisfaction Mrs. J. T. Hart, who are moving to Lubbock. But we are sure Lubbock will learn to appreciate them, too. If not, they can always come back to Hamlin among friends.

"Yankee" Apples Start Fued on Katy's Train

It's no joke, son! Those "yankee" aples on the Katy lounge care hove ruffled the tempers of Texas citrus growers Hamlin area people are told

Hamlin regrets to lose Mr. and

this week by the Katy Railroad. Passengers on the Texas Special were pleased recently when the Katy returned its pre-war custom of giving away apples in the lounge at bedtime. Even Texans accepted the apples and chomped them delighted-

Then Paul Vickers, president of the McAllen Chamber of Comerce, heard of this "despicable" practice and protested to the Katy vice-president Traffic Manager J. F. Hennessey Jr.

He wrote that Rio Grande citrus growers had gone "sour" on the Katy for alowing "nawthun" aples on ts trains rather than Texas oranges

"Your patrons will enjoy Texas because they might get the bellyache

If you need any pointers on fish- fruit more than they will an apple; one to be quite so treacherous as a ing for sharks, just ask Mrs. H. M. from eating one—even worse than I an bellyaching because you are serv-

ding her about that monister her ing apples." Then the National Apple Institute being with an armistice which proand the Michigan Apple Commission vides that: 1.—Apples will continue took up the fight. Thundered the to be served free in the lounge in the Grand Rapids, Michigan, Press in an evening. 2.—Luscious oranges and of this week. editorial blast: "As every Texan grapefruit (the Texas kind) will be ought to know by now, apples are available at all times in the diner, both highly flavorsome and digest- and will be an integral part of til sprained ankle while at her work at ible fruit—and we have never known the breakfast menus.

Katy officials, caught in the gunfire of both warring groups, have stalemated the fight for the time

the items covered in the family budget-food, clothing, housing, etc. Spent for electric service, your dollars actually go further than before. This is true in spite of the fact that costs of operation and maintenance have gone up and up with almost everything else, except the hire of money.

Living costs continue to increase, yet the average cost of a kilowatt hour of service to residential customers has decreased 32.6 per cent since 1933.

West Texas Utilities Company -

• The Jexas Butane Dealers Association Urges You -

Butane-Propane System

Can your butane or propane tank serve you through the four winter months without refilling? The Texas Butane Dealers Association urges you to take stock now. If not, you may find yourself without heat in the coldest months of the year.

> Hundreds of new industries developed during the war-plastics, synthetics, chemicals, etc.-have placed a tremendous demand for butane and propane all year round. On the other hand, domestic users burn four to seven times more gas in winter than in summer, but your dealer can furnish you very little more gas in cold months than in warm months. In order to balance this situation, heating gas users must plan to buy their winter supply at least four months ahead.

By doing this, your winter supply will be in your tank when you need it most. This situation is not new. The farmer has always stored grain early for winter. Housewives can summer foods for winter use. And by taking less time for your dealer's services, he can supply you and your neighbors more economically at the very time when road conditions are worst.

> The Texas Butane Dealers Association urges you to drop in and see your local gas dealer as soon as possible. Consult him before you buy any system. He knows butane-propane, and will do everything he can to help you get ready for winter now.

### Highway Mileage In Texas Reflects Enormous Gains

While Jones County highway work, outside of regular maintenance operations, activities of the Texas Highway Department are impressive.

Now entering its thirtieth year, Commission Chairman John S. Redditt reports paved mileage in the state system has more than quadrupled since it was first accurately measured in 1929.

Endless struggle to build new roads as fast as traffic demand has increased has shoved the 1929 paved mileage of 6,061 miles up to 25,734 structions on how to handle the miles on July 1-with more being added every day.

"This still isn't enough," Redditt writes a Herald reporter. "Blight of congestion and hazards to safety their lady friends wear, but many on many sections of these paved of them keep chasing after those roads render them inadequate to who wear those hats.

100,000 MILES, STILL ROLLING

This sturdy veteran from a group of tires tested for performance with a fleet of heavy gasoline trucks has given 100,000 miles of service. its cotton cord carcass outlasting three recappings. Made under identical conditions with the same amounts and types of rubber, but using different fibers in the cords, the tires showed different degrees of stamina. Rayon cord tires lasted for an average of 25,985 miles, cotton cord tires for averages of 46,399, 50,673 and 50,975 miles. Admiring the tire in the picture is Sam Lazenby of Hughes, Ark., himself an oil company distributor.

#### Clearing Mestquite Trees Gives Grasses Chance in Pasture

Veteran ranchers of Jones and other Counties say it is almost 'uni clievable" what our native West Texas range grasses will do in grazing-when given a fair chance.

A number of ranchers in Jones and Fisher Counties are now giving native grasses a chance by clearing mesquite growth off the range and 100 to 120 stocker cattle have been giving forage grasses room to grow.

An instance of how mesquite eradications help native grass is that of Wayne B. Ray, Archer County ranch er, who has captured attention of county agents and stockmen with his experiment.

that would carry 40 head of cattle 10 to 20 years ago, if the cattle were given extra feed three months out of the year. Seven years ago the mesquite was grubbed off the pas- 17 to 31 quarts. Each canner had a ture, and for the past three years soid off the same land.

### Time Tables for Processing Foods Same in Canners

Processing time tables for home canners recently released through levas A. & M. College Extension Service can certainly be relied on or any make or model of canner

So states Miss Loretta Allen, the county home demonstration agent, who says canners on the market today differ in material, design and size but tests in nine canners showed the rate of heating and cooling did not differ enough to make different processing times necessary.

U. S. Department of Agriculture specialists made tests, Miss Loretta Representatives in Washington. Allen continues, with green beans and mashed pumpkin with two can-Ray has a certain tract of land ners of porcelain enamel on steel, one of pressed aluminum, and others of cast aluminum.

The canners varied in weight from 11 to 20 pounds and in volume from capacity of at least one tier of seven quart jars.

County housewives may feel safe in using the standard processing times in any type of canner. The new time tables are still available in Mss Allen's office.

#### Many Vet Checks Returned Because of **Inadequate Address**

More than 17,000 government checks to Texas veterans, including plied that it was a locomotive, and a number for Jones, Fisher, and Stonewall County GI's, were return in the period of January through too?" May because of faulty addresses, the Veterans Administration informs The Herald

Principal cause of the returns was veterans moving and failing to give beauty spots. One beauty spot the VA a notice of change of address. In all such cases the Veterans Administration must verify correct addresses of the GI before the checks can be remailed.

Although checks returned was only one per cent of the 1,739,733 issued in Texas during the time, a VA spokesman emphasizes the hardships caused many vets and the additional work load resulting from

Veterans Administration in change of addresses are World War II veterans taking on-the-job training or going to school. More than 60 per cent of the returns, it is pointed out, are subsistence payments.

#### Vets Presidential Testimoniials Ready

Presidential Testimnoial will be given to any individual who served for any period between September 16, 1940, and December 31, 1946, and was honorably separated, without having received the Testimonial, at

he recruiting office in Abilene. Presentation of certificates of service, discharge or separation papers are necessary to receive the Testimonial, Hamlin area veterans are advised.

He-"I'm keeping a record of all the good times we've had together." She-"Ah! Keeping a diary?" He-"No. Stubs in a check book."

#### Wheat Grindings Down Since April

Hamlin area wheat farmers this week learned that Texas wheat grindings slid downward 13 per cent in April in an expected seasonal decline, according to government reports received and compiled by the don't want to be roasted too much University of Texas Bureau of Business Research.

### Nickel Added to Pay Checks For State Pensioners

A nickel is added to the average old-age pension check for August for each person in Jones and all other counties to make the August erage payment total \$29.94, local office of the State Department of Public Welfare reports.

August checks to Jones County old-age recipients will go to approximately 350 persons, the Snyder office of Mrs. Vertna Gartman re-

A total of 216,573 persons in Texas will receive public assistance checks totaling \$6,\$675,579. The aged needy blind and dependent children are included in the public welfare

Median age of aged recipients in Jones and other counties in June, for example, was 66.3 compared to 73.6 years for the total state case

It is interesting to note the State Department of Welfare in Austin says a total of 196,367 aged over Texas will receive \$5.878.827 in August; or an average of \$29.94. This compares wth an average of \$29.89

### Announcement to Owners of Armed Forces Leave Bonds

The Farmers & Merchants National Bank of Hamlin is authorized by the United States Treasury Department to cash Armed Forces Leave Bonds for registered owners any time after September 1, 1947.

There is no requirement that these bonds be cashed at this time in order to get your money. They can be cashed at an time in the future upon demand and without delay.

Unless you are in real need of the money now, this institution and the United States Treasury Department strongly recommend that you permit your bond to earn interest at 21/2 per cent (up to its maturity) until you actually need the cash. We will be glad to serve you at any time.

To facilitate identification, owners should bring their original separation papers with them when presenting bonds for payment.

Under no circumstances may registered owners cash their bonds before September 2, 1947.

# Mr. Cotton Farmer!

# A Matter Vital To All of Us Needs Your Co-operation!

As all of us know, this area in good crop years needs the valuable assistance of migratory farm laborers from Mexico. Hamlin was one of the first towns in this section to provide a free Migratory Labor Camp. At the present time, the camp is badly run down and does not provide the facilities so badly needed.

Plans are being formed to build new bath rooms, sheds and other camp facilities, including a small cafe for these people. Something should be done or the area might face a drastic shortage of cotton pickers.

No one wants this to happen — both

the farmer and the businessman are vitally concerned. Businessmen improved the camp site and have kept it up in the past. They are willing to go a big share of the contemplated improvements, which would probably amount to several thousand dollars. They will appreciate the backing, financially and otherwise, of farmers throughout this area. Contributions from farmers will be gladly accepted and used in this work.

Local people are willing to accept the responsibility of the camp's operation—but will appreciate any advice or assistance from farmer friends. Let them hear from you about this!

### TRUE STORIES of **WEST TEXAS**

(Copyrighted by N. H. Kincaid, 1947)

BALLAD OF THE BARBED WIRE

Not far from Bollinger in Runnels County and just of U.S. Highway 83, there is an old fence, its wires cut and spliced at every post. A frayed and most uninteresting fence, perhaps, but behind those spliced wires is a story that was duplicated throughout the west until it has become the history of West Texas itself.

This fence was new, back in the spring of 1883. It enclosed the 100,000-acre holdings of the Odom-Luckett Land & Livestock Company. But those were the days of conflict between the cattlemen, or the "free grass" element, and the small land owner, and every fence became a challenge to the man with the pliers. Guards became a necessity.

So on this night in 1883, just after the guards, going in twos, had completed the first leg of their inspection of the 40 miles of boundary fence, it thappened.

"All right, you fellows, up with 'em," came quietly from the shadows beside them. Defthy their guns were removed and each man had a pair of pliers pushed into his hand. Now get to work!"

And all night long the guards had to cut wire, every strand at each post. Forty miles of fence, three strands high.

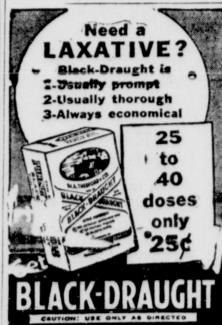

This opposition to fenced-in pastures and watering places was bitter and deep. Nor was it confined to the cattlemen. Nester's had their grievances also. The farmers fenced so they could grow crops, the stockmen fenced to assure a range for their cattle: they both fenced for spite. And wire cutting became a profession in itself. Men were known to hire cut to first one faction and then another, just for the thrill and the pay.

Garland G. Odom and his father, Thomas L. Odom, had been among the first cattle men of the open range to fence their holdings. But in 1886, three years after his expensive fence-cutting experience, Garland established his ranch in Apache County, Arizona.

Meanwhile the state legislators, realizing the gravity of the situation, made it a misdemeanor to carry a pair of pliers. And 20 year's later final measures were enacted that gave protection to the land holder against the land-claim jumpers and the man with the pliers was no longer a problem.

Mrs. Parker May and daughter, Judy, arrived Tuesday from Washing ton. D. C. for a visit with her husband's parents, Mr. and Mrs. M. P.

Mrs. Grover Sipe is in a Rotan hospital for medical treatment in preparation for an operation.

### YOUR STATE TAXES DOUBLED

The State Tax Rate This Year Is 72c On \$100 Valuation

Last Year the Rate Was 37c

Who Said, "No New Taxes"?

VOTE? VOTE!

> Saturday, August 23rd **AGAINST**

An Additional 5c Tax

On Saturday, August 23, an amendment to the constitution of the State of Texas will be voted on to allocate 5c of the authorized 7c Confederate pension tax to finance a building program for State owned colleges other than the University of Texas and Texas A. & M.

### An Additional Tax

"They" say this is not a new tax, but you have not been paying it for many years. It certainly will be an additional tax you have not been paying. If voted by the people of Texas on August 23, it will be added to your 72c State tax, making a total of 77c on the \$100 valuation.

### **Small Taxpayers Pay**

The veteran, the farmer, the small home owner, the laborer, the small business man, everybody will have to pay this 5c tax in addition to the 72c State tax, if this amendment carries. This State tax is in addition to local taxes-County taxes—School taxes—City taxes—and perhops others.

### Will Not Provide Buildings

If passed, this 5c additional tax will not provide adequate and sufficient buildings at today's cost of construction. In the next 10 years West Texas State Teachers College at Canyon MIGHT get \$487,200. The College of Mines at El Paso MIGHT get \$423,000. Sul Ross at Alpine MIGHT get \$189,000. Texas Technological College at Lubbock MIGHT get \$1,500,000 in these 10

### An Unnecessary Tax

This is an unnecessary tax. By a division of the so-called Permanent University Fund more buildings can be built at all the State owned colleges than this tax will provide. They also can be built much sooner. And the State University and Texas A. & M. still can get more buildings than they can use.

### **42 Counties Exempt**

42 of the State's richest countles pay no ad valorem taxes for State purposes. None of these counties are in West Texas.

Should you pay another unnecessary 5c tax when 42 of the State's 254 counties will not be paying to help our State colleges.

### Help Colleges-Vote Against

You will actually be helping all 14 of our States colleges if you vote against this amendment. All these colleges can and will get more money by regular appropriations if this amendment is defeated than they could get by the passage of this 5c tax amendment. Your vote against the amendment will help instead of hurt these 14 State colleges.

### DON'T BE LED ASTRAY

Do not be led astray by this proposed amendment which levies a 5c tax on your property for 30 years and saddles a \$45,000,000 debt on you and all other taxpayers. If passed, this amendment will open the flood gates of the State treasury to dozens of new colleges and you again will pay the bill.

Go Vote Saturday, August 23rd

### Vets' Uncashed Checks Over Six Months Old Void

Over 50 Jones County ex-service men are reminded again this week ance checks, outstanding six months J. H. Foster. or more, will be cancelled August 1.

Veterans' checks for both unemployment and self-employment will be effected by the new order.

Notice has been received by area Veterans Administration officials that checks six months old or older will no longer be valid after the first of August. Suggestion is made to Jones County GIs that all veterans having such checks in their possession to immediately cash same.

There are, a Herald reporter finds, Jones, Fisher and Haskell Counties, and is now at home here. but throughout Texas there are more than 2,000 warrants-unless cashed in July-that will be worth-

The Veterans Administration and the Texas Employment Commission have been endeavoring to give GIs a break by giving them advance notice of the August 1 deadline.

It is imperative all Jones County GIs who hold six-month-old checks to cash them this (Thursday) after-

#### Cotton Receipts at Texas Mills Up; Seed Crushing Down

Cotton farmers of this four-county area were told this week that heavy receiptst of cotton at Texas mills began in June, jumping from 206 tens in May to 2,170 tons during June according to the Bureau of the Census reports released by The University of Texas Bureau of Business

n spite of the thousand-fold increase of receipts, cottonseed crushed slid downward three per cent to total 6,377 tons. This decline was not nearly so great as was seasonally expected, however, and the Bureau's index jumped upward 53 per cent to stand at 52.3 in June (bas 1935-39 as 100). The index is double over the presence of foreign matter the June 1946 index but is only slightly over half of prewar produc-

> Stocks at the end of the month slipped down 21 per cent to total 16.328 tons of June 30.

> Compared to June 1946, receipts were up 80 per cent, crushings were almost double and stocks felt a 40 per cent gain.

### Mr. and Mrs. Everett Crow have eturned home from a visit to Ohio. Large Oil Lease In Royston Field

\$200,000 Damage County bank that failed, and he deeded the rights in settlement with Also Claimed by County Attorney

Case Termed Most Unusual

In one of the most unusual developments ever recorded in Texas turbulent oil history, several big oil companies have been sued for \$200,000 and outright cancellation of leases in the old Rayston oil field, five miles southwest of Hamlin. Outcome of the case will probably will be closely watched throughout the state and may well establish a precedent in such cases.

The Texas Company, Stanolind Oil Corporation and Merry Brothers and as special counsel for the county to the case will be tried in the October

cellation of a lease held on 3,040 here, 44 years ago. Twelve children the tracts involved.

Field Opened in 1927.

Watson said that on November 18. prominent early day settler of the of Temple; three sisters, Mrs. W.ll Holder, who shortly thereafter sold Ticker of Olney, Joe Sker of Grathe lease to the defendants in the ham and Fletcher Tucker of Hobbs, suit. The Texas Company drilled the famous Stephens well in 1927, which was the opener of oil production in the Royston field, and in Fisher County

Texas Company drilled not more the date of the lease purchase by Held Saturday Here that company until the date of the filing of the suit by the plaintiff, producers from the original discovery formation of 3,300 feet. The Texas Company recently drilled an additional well to Palo Pinto reef, around 5,200 feet, thought to be a 200-barrel per day producer.

The plaintiff alleges that the three shallow wells on the lease acreage involved in the suit ceased to produce commercially some time ago, and that the lease terminated with non-production, and claims that defendants in suit have no lease on the property, but are unlawfully claiming lease and thereby praventing plaintiff from having land developed.

Watson said that on November 18 this year the lease will be 21 years old, during which time the county has realized no money from it.

Fisher County acquired approximately one-fourth of the mineral rights under the tract by deed from Stephens in the 1930s, Watson said. Stephens had been surety on one of the depository bonds for a Fisher

Watson said that the Commissioners Court that retired last year was not to blame for failure to bring suit while in office. It could only be done when the three shallow wells involved stopped commercial

### J. T. Tucker, 65, Former Resident, Passes at Waco

dent of this community, was found dead in bed by his wife at their home in Waco last Thursday morn-The suit, filed last week, listed in.g. Death was attributed to a heart Fisher County as plaintiff versus attack and the time of death at 6:00

> Funeral services were held at Italy Churc hof Christ Friday afternoon with McCurin Harwell, minister, officating. Interment was in the Italy

Mr. Tucker was born and reared at Italy but moved to Hamlin in 1926, living here for three years on the Chandler farm, south of town. They later lived in Waxahachie and Waco. He was married to Miss Mamie Fisher County is asking for can- Snelton, sister of O. R. Shelton of cight of whom survive.

Another brother-in-law of the Sheltons, R. K. Woods, died at Italy about two months ago with a heart

He is survived by his wife: two daughters, Mrs. Marvin Corley, of Waco and Mrs. Ivy Langston of Cleburne; six sons, Doyle Tucker of Dallas, Aubrey, Melton and Thomas Easley and Mrs. Claude King of Weatherford, and Mrs. A. B. Sir s of Graham; three brothers, H. N.

Mrs. O. R. Shelton and daughter, Pebe Doris Shelton, attended the final rites at Italy Friday.

### **Funeral Rites for** Mrs. J. H. Byrd

Mrs. J. H. Byrd, 80, died at Hillsboro last Friday after a lingering sister, Mrs. Harmon, also of Hillsboro, was critically ill at the time and could not attend the funeral

The final rites were held at the Barrow Funeral Home here with the Rev. J. T. Crawford, pastor of the Church of the Nazarene, officiating

Saturday afternoon at 4:00 o'clock. Interment was in the East Cemetery under the direction of Barrow Funeral Home. Her husband, who

died in 1944, is also buried here. She is survived by he one sister, Mrs. Harmon, and several nephews and neices, including Johnnie Pearl Harmon, who formerly lived here and was employed by the telephone company.

Aubrey Miller and D. M. Holden are in Marlin for a rest and a few weeks of fishing.

A well trained husband can't pass a mail box without feeling in his Thursday from Rotan hospital, and

By virture of an order of sale issued by order of a judgment decree of the 104th District Court of Jones County, Texas, by the Clerk of said Court, on the 16th day of August A. D., 1947, in a certain suit No. 6860, wherein The State of Texas, for itself and in behalf of Jones County and for the use and benefit of Jones County Road District No. 1, a municipal corporation duly incorporated under the laws of the State of Texas, and being a political subdivision of said county whose taxes are assessed and collected by the Tax Assessor and Collector thereof, is Plaintiff, and the City of Hamlin and the Hamlin Independent School District, both municipal corporations, are Interveners, H. L. Norris is defendant-in favor of the said Plaintiff, for the sum of \$434.50, together with interest at six per cent per annum from April 30, 1947; in favor of the said Intervener, City of Hamwith interest at six per cent per annum from April 30, 1947; and in favor of the said Intervener, Hamlin Independent School District, for the sum of \$431.71, together with interest at 6 per cent per annum from April 30, 1947, for delinquent state

# Tidelands Rights

Hamlin people are advised this week by the Governor of Texas that soon after his return from an official trip to Guatemala, he plans to make or name a statewide committee to coordinate the efforts of all Texans in proaecting the interests of the public schools in the tidelands mat-

A recent United States Supreme Court decision held that the Federal government had prior claim on the mineral resources in tidelands, regardless of the ownership of these land. Texas is resisting that view. Proceeds from leases on these lands go to the school fund.

Governor Jester secured the unanimous adoption of a resolution by The Conference of Governors in the recent meeting at Salt Lake City, Utah, urging Federal legislation to protecct the rights of all the States in this matter, and just returned from Great Falls, Montana, where he addressed the Interstate Oil Compact on the same subject. The Commission unanimously adopted the saame resolution.

"This threat is not by any means confined to our oil reserves," the Governor said. "If the Federal government can maintain a prior claim to oil, it can make the same claim to any other natural resources, and we could conceivably find ourselves some day with nationilized natural resources, regardless of their previous ownership. The significance of this to our schools, which get royalities, to our State economy, and to the right of ownership of private property, cannot be overestimated.

"There is, in my judgment, no more important matter which could occupy the attention of the Chief Executive and other officials and citizens of Texas than this, and I plan to dedicate my most earnest effort to the matter of securing a satisfactory solution. In this endeavor I invite the full cooperation of all the citizens of Texas."

Mrs. W. O. Wilbanks was in Rotan Tuesday for medical treatment

Billie Deel was brought home last is getting along nicely.
